

Daniel Bonilla Martínez

Unity Game Developer

+57 3155170055 | danielbonilla0542@gmail.com | [LinkedIn](#) | [Portfolio](#)

Bogotá, Colombia

Junior Unity Developer with experience in C#, object-oriented programming (OOP), and gameplay systems development for 2D and 3D projects. Proven background leading creative teams, enabling a deep understanding of both code and the art behind game development. Seeking to advance my career in the gaming industry by leveraging my expertise in production, team management, and a strong technical-artistic vision.

EDUCATION

UNAD, Bogotá, Colombia

Feb 2022 - Jul 2027 (In Progress)

Multimedia Engineering

Generation, Bogotá, Colombia

May 2026 - Aug 2026

Junior Unity Developer

SENA, Bogotá, Colombia

Feb 2016 - Feb 2018

Associate Degree in 3D Animation

WORK EXPERIENCE

Freepik, Cartagena, Colombia

Dec 2020 - Nov 2025

3D Modeling Team Lead

- Led a multidisciplinary team of 9 members, implementing agile planning and tracking methodologies that achieved a 100% on-time project delivery rate.
- Documented and standardized key workflows, reducing operational errors by 90% and facilitating seamless team scalability.
- Designed and optimized production pipelines for a volume of 9 monthly projects, boosting overall team productivity by 25%.
- Engineered the onboarding program for new hires, cutting integration and adaptation time down from 4 weeks to 1.5 weeks.

PROJECTS

- Developed 2 video games during tight-deadline Game Jams, collaborating on core mechanics and gameplay systems.
- Implemented gameplay systems in Unity (C#), including basic Game AI using NavMesh, state machines, NPC spawning, and raycast-based interactions.
- Developed UI systems, audio managers, parallax scrolling, and status bars, integrating core mechanics to enhance overall user experience.
- Successfully published titles: [Deeper](#) and [Tankard](#).

SKILLS

- Unity 3D | C# | POO | Game AI Systems | Git / GitHub | 3D Modeling | PBR Texturing | Team Leadership | Workflow & Pipeline Optimization | Generative AI (Image & Video)
