Bogotá, Colombia

Junior developer with knowledge of C#, TypeScript, and object-oriented programming. I build web applications, games, and interactive 3D experiences. A technology enthusiast with professional experience in 3D production, creative team leadership, and process improvement. I aim to contribute a technical and artistic perspective while continuing to grow in software development.

EDUCATION

UNAD, Bogotá, Colombia

Feb 2022 - Jul 2027 (In Progress)

Multimedia Engineering

Generation, Bogotá, Colombia

May 2026 - Aug 2026

Junior Unity Developer

SENA, Bogotá, Colombia

Feb 2016 - Feb 2018

Associate Degree in 3D Animation

WORK EXPERIENCE

Freepik, Cartagena, Colombia

Dec 2020 - Nov 2025

3D Modeling Team Lead

- Led a multidisciplinary team of 9 members, implementing agile planning and tracking methodologies that achieved a 100% on-time project delivery rate.
- Documented and standardized key workflows, reducing operational errors by 90% and facilitating seamless team scalability.
- Designed and optimized production pipelines for a volume of 9 monthly projects, boosting overall team productivity by 25%.
- Engineered the onboarding program for new hires, cutting integration and adaptation time down from 4 weeks to 1.5 weeks.

PROJECTS

- **3D Viewer:** Web viewer built with React, Three.js, and TypeScript; model loading, mesh and UV inspection, subdivision, and HDRI lighting.
- **DBLanker:** Dashboard built with React, Node.js, Express, and PostgreSQL. REST API with filtering and pagination; per-agent metrics and daily volume using SQL.
- **Mapora:** Interactive 3D globe built with Three.js and TypeScript; image and video API integration and data persistence in MongoDB Atlas.
- **Tankard:** Unity/C# gameplay systems: recipes and drink mixing, NPC AI, customer spawning, and state machines.
- **Splime:** 3D co-op game. Project management with Trello, modeling, rigging, animation, and work on textures and shaders in Unity.
- **Deepre:** 2D game developed as a team during a Game Jam. Gameplay mechanics, SFX and music integration, parallax, and UI.

SKILLS

Unity | C# | OOP | Git / GitHub | TypeScript | Three.js | Vue | CSS | HTML | REST APIs | Node.js | MongoDB
3D Modeling | PBR Texturing | Generative AI Image and Video | Team Leadership | Workflow Optimization
SQL | PostgreSQ
